

Variant: *NM_001754.5(RUNX1):c.747T>A (p.Pro249=)*

Version: 1.0

CA512318593 [↗](#)

3045268 (ClinVar) [↗](#)

Gene: RUNX1 ([HGNC:861](#))

Condition: hereditary thrombocytopenia and hematologic cancer predisposition syndrome ([MONDO:0011071](#))

Inheritance Mode: Autosomal dominant inheritance

UUID: 130f0926-3c30-4beb-8f72-a07dc23855bd

Approved on: 2024/9/18

Published on: 2024/9/18

Myeloid Malignancy VCEP

NM_001754.5(RUNX1):c.747T>A (p.Pro249=) is a synonymous variant which has a SpliceAI score ≤ 0.20 (0.01) (BP4). This variant has a SpliceAI score ≤ 0.20 (0.01) and evolutionary conservation algorithms predict the site as being not conserved (PhyloP score ≤ 2.0 (1.17) (BP7). This variant is completely absent from all population databases with at least 20x coverage for RUNX1 (PM2_Supporting). In summary, this variant meets criteria to be classified as likely benign. ACMG/AMP criteria applied, as specified by the Myeloid Malignancy Variant Curation Expert Panel for RUNX1: BP4, BP7, PM2_supporting.

Met criteria codes

BP4			This synonymous variant has a SpliceAI score ≤ 0.20 (0.01) (BP4).
PM2_Supporting			This variant is completely absent from all population databases with at least 20x coverage for RUNX1 (PM2_Supporting).
BP7			This variant has a SpliceAI score ≤ 0.20 (0.01) and evolutionary conservation prediction algorithms predict the site as not being conserved (PhyloP score ≤ 2.0 (1.17) (BP7).

Not Met criteria codes

BA1			This variant does not have a MAF ≥ 0.0015 (0.15%) in any general continental population dataset.
BP3			This rule is not applicable for MM-VCEP.
BP1			This rule is not applicable for MM-VCEP.
BP2			This variant has not been observed in trans with a pathogenic variant for a fully penetrant dominant gene/disorder or observed in cis with a pathogenic variant in any inheritance pattern.
BP5			This rule is not applicable for MM-VCEP.
BS2			This rule is not applicable for MM-VCEP.
BS1			This variant does not have a MAF between 0.00015 (0.015%) and 0.0015 (0.15%) in any general continental dataset.
BS4			Segregation data for this variant has not been reported in literature.
BS3			In vitro or in vivo functional data has not been reported for this variant in the literature.
PP1			Segregation data for this variant has not been reported in literature.
PP2			This rule is not applicable for MM-VCEP.

PP3			This synonymous or intronic variant does not have a REVEL score ≥ 0.88 or a SpliceAI score ≥ 0.38 .
PP4			This rule is not applicable for MM-VCEP.
PM6			De novo data for this variant has not been reported in literature.
PM1			This variant is not a missense variant.
PM3			This rule is not applicable for MM-VCEP.
PM5			This variant is not a missense variant.
PM4			This variant is not an in-frame deletion/insertion.
PS1			This variant is not a missense variant.
PS2			De novo data for this variant has not been reported in literature.
PS3			In vitro or in vivo functional data has not been reported for this variant in the literature.
PS4			Proband data for this variant has not been reported in literature.
PVS1			This variant is not a null variant.
